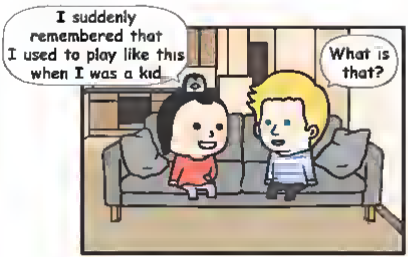
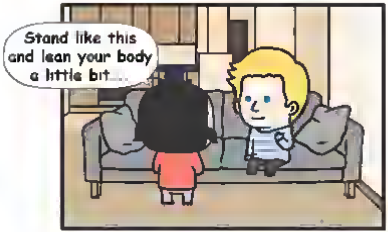
All children are the same.

An interesting thing that I have learned from talking with Mev is that children all over the world act in the same way.

For example,



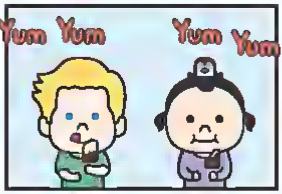
I suddenly remembered that I used to play like this when I was a kid.
What is that?



Stand like this and lean your body a little bit...

...and then spin by making a circle and lean your body as much as you can

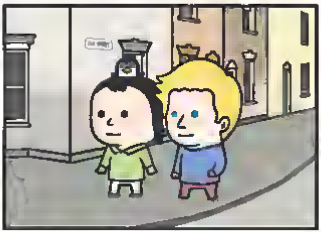
..spinning like this,...



Yum Yum
Yum Yum

I always ate the chocolate layer first like this...
...and then eat the inside.

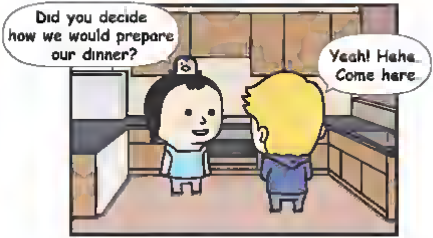
... eating ice cream like this...



Haha
I don't know
why I did that.
What?

Ah, it's a bad thing
But I remembered that
I used to ring
someone's door bell
and then run away
when I was little

....being naughty like this,....

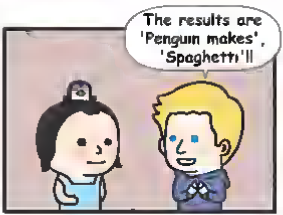


Did you decide how we would prepare our dinner?
Yeah! Hehe.. Come here.

Choose a colour and a number.
Blue! 4!

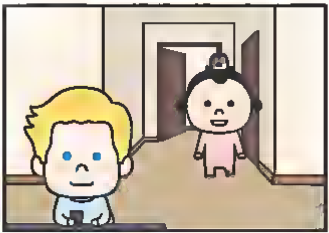
B. L. U. E.

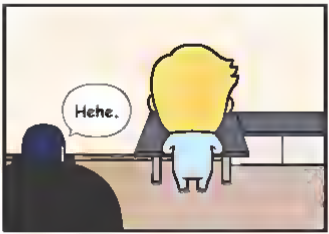
1. 2. 3. 4



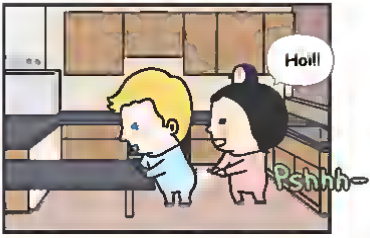
...cute game like this.

I couldn't be sure how these things
spread from place to place
but it made me think that
wherever kids are from,
they play in the same way

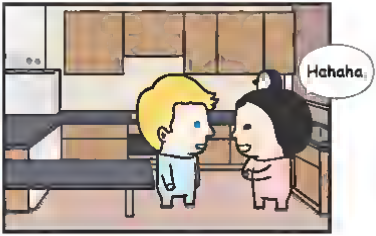




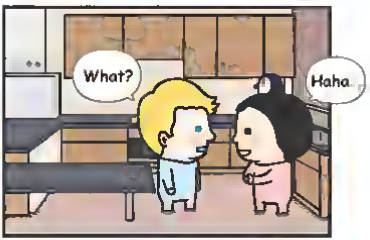
Hehe.



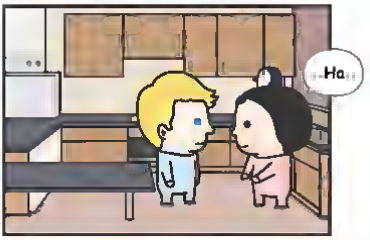
(Hit the target)



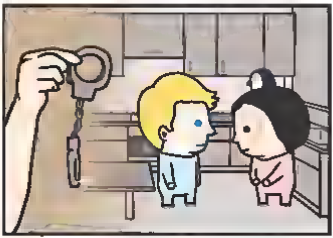
Hahaha.



What?
Haha



Ha



The bottom target game is not everywhere
Only Korea.
